8	Assets Revaluation Reserve		
9	Other Reserves	10,961,884	10,961,884
10	Reserve for Capital Expenditure		

BANK OF KATHMANDU LTD.

3. Detail information about the Subordinated Term Debts with information on the outstanding amount, maturity, amount raised during the year and amount eligible to be reckoned as capital funds:

Bond floated as : Bank of Kathmandu Bond 2076 (BOK Bond)
 Outstanding amount : NPR 400,000,000
 Amount raised during the year : Nil
 Maturity Date : May 17, 2020
 Amount to be reckoned as capital : NPR 400,000,000

Bond floated as : Bank of Kathmandu Bond 2079 (BOK Bond)
 Outstanding amount : NPR 600,000,000
 Amount raised during the year : Nil
 Maturity Date : June 27, 2022
 Amount to be reckoned as capital : NPR 600,000,000

A cumulative amortization factor of 20% per annum shall be applied to determine the amount to be recognized under Tier II capital during the last 5 years to maturity. Redemption reserve for BOK Bond 2076 has been created from FY 2070-71 and for BOK Bond 2079 has been created from FY 2072-73.

18. Summary of the bank's internal approach to assess the adequacy of its capital to support current & future activities

The Revised Capital Adequacy Framework (under BASEL III) provides distinct approaches for computing capital requirements in relation to credit risk, operational risk and market risk. The Bank also takes into consideration these risk factors during assessment of ICAAP. The Banks' Internal Capital Adequacy Assessment Process (ICAAP) involves assessment of:

- i. Actual Capital Adequacy of the Bank
- ii. Additional capital requirement in relation to the existing risk profile of the Bank
- iii. Additional capital requirement in relation to the business growth of the Bank

The Bank has ICAAP Policy approved by the Board, to ensure the Bank possess adequate capital resources in commensuration with all the material risks posed to it by its operating activities and evaluate its ability to hold capital in excess of the minimum regulatory capital adequacy ratio. To this regard, the Risk Management Committee of the Bank reviews ICAAP on quarterly basis to ascertain the adequacy of current available capital in relation to the regulatory requirement, current risk profile and growth prospect of the Bank.

The Bank prepares annual budget plan and computes capital adequacy ratio in order to assess the adequacy of capital for the required growth. The Bank on monthly basis reviews the performance report and the capital adequacy ratio.

Furthermore, the Bank also prepares long term capital plan. The capital plan is reviewed to ensure that the financial result attained is in line with the capital plan devised. Based on the actual figures, if the Bank feels that the figures could deviate significantly, the Bank revises its long term plan.

19. Summary of terms, conditions and main features of all capital instruments, especially in case of subordinated term debts including hybrid capital instruments

The bank has issued "Bank of Kathmandu Bond, 2076" (BOK Bond) amounting to NPR 400 million as Subordinated Term Debt in Baishak 2070. Bank has not pledged any securities while issuing BOK bond. The bond has the following features:

BANK OF KATHMANDU LTD.

- Bond Validity Period : 7 year
- Bond Maturity Date : May 17, 2020
- Coupon Interest Rate : 8% p.a.
- Interest Payment Period : Bi-annually (in every six months of Nepali Calendar)
- Interest Payment Timing : Interest is paid on the 1st day of Magh and Shrawan
- BOK bond can be pledged with other banks and financial institutions to avail loan facility.
- BOK bond is listed with Nepal Stock Exchange Ltd.
- BOK Bond holders will have rights of claim only after the depositors in case of liquidation.
